

## EDUCATION

We want to inspire, educate and equip students with STEM and AI skills needed for a bright future and a rewarding career that education can help provide.

### STEM skills K-12

Our focus is on reaching youth to deliver skill development programs, inspiration and hands-on opportunities in STEM.

### Career, College & Tech School Readiness

We want to help people experience pathways for their future through upskilling, apprenticeships and training programs that provide people with new possibilities.

### Next Gen Engineers & Electricians

We seek programs that will generate interest in these career paths and AI that supports these functions.

## ENERGY RESILIENCE

Energy is essential for people and progress. We want to support programs that enhance, strengthen and diversify energy resiliency in our society.

### Energy Education

We will support programs that aim to educate and engage people/students with various energy sources and energy resilience in our society.

### Energy Resilience Planning

We will provide grants to municipalities, nonprofits and organizations to devise energy security plans, research and actionable efforts.

## DISASTER RESPONSE

We will support those that respond to natural disasters, crisis and emergency situations.

### Disaster Response & Preparedness

We will support organizations that provide resources and assistance during disasters and help people prepare for and recover from disasters.

### First Responders

We will review requests that provide support, recognition, training or tools to local first responders in our communities.

## OUR COMMUNITY

We will focus on being a good neighbor where Generac employees live and work.

### Hyper-local

We will focus our charitable efforts in local communities where we operate to help ensure strong and vibrant communities.

### Employee Enabled Giving

We support a program that enables Generac employees to apply for support to charities they are involved with.

### Veterans and Military Families

We seek to honor and support those that have served our country.
